THE CORAL

SAMUI - LAMAI BEACH SOI 2

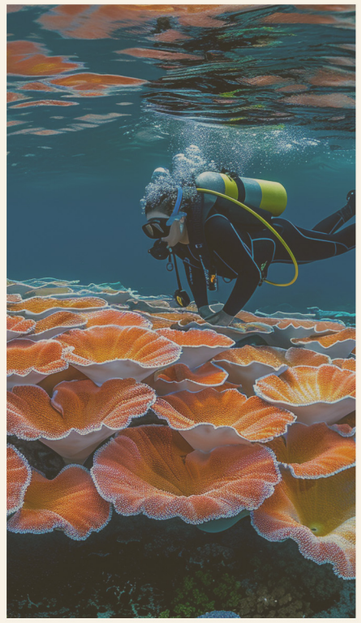

CORAL REEFS

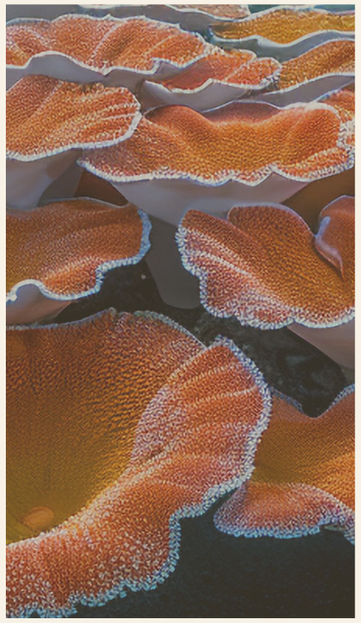

Conceptual Design

The Coral Samui Condominium is the 2nd project by ESTANAN COMPANY LIMITED, located in a prime location in Koh Samui, where is the place rich in diverse marin life. Thus the design concept was inspired by "Coral reefs"

The architectural design is inspired by the natural beauty of coral reefs, featuring graceful curved forms and layered structures that create a harmonious connection with the sea. The interior design also draws inspiration from the shapes, textures, and patterns of coral reefs, creating a seamless transition between indoor and outdoor spaces. Every element is carefully designed to evoke the feeling of living close to the ocean, allowing residents to experience the beauty and tranquility of the sea throughout the project.
